*(formerly Christy, Sandy, and Stan)*

Fine acoustic trio

Bio:

Christy, Sandy, and Stan came together after meeting at an open stage that was hosted by a mutual friend.

Christy Wessler began her folk singing career in New York in the late 60's. She married in 1975 and put her career on hold to raise four children. In 1985, she moved to Colorado and joined a community choir just to be able to "sing something somewhere." It was at this time that she began to study classical voice; she studied for six years.

In 1995 Christy decided that she missed the beautiful simplicity of folk music, so with a rented guitar in hand she headed for the coffee houses. She began writing and recording and has three CDs to her credit. This unique singer/songwriter, comedian, opera singer and yodeler was joined first by Sandy Grandchamp in 2002.

Sandy is not just a pretty face with a stunning voice. She is a photographer who spent time in Antarctica where she worked, sang, and photographed the magnificent terrain. Her stunning photography of Antarctica has been published in a variety of media. Her beautiful voice is equally suited to taking the lead or adding harmony. Sandy's and Christy's voices blend so well and sound so incredible together that Sandy was asked after a performance if she enjoyed singing with her "mom" Christy. (Sandy shared this info with Christy and ran for cover.)

Stan Sawicki joined the ladies in 2006 to form this dynamic trio. A talented singer-songwriter and world class guitarist, Stan has performed professionally, in his hometown Denver and in Australia where he lived and worked for 17 years. He traveled the continent of Australia with the same Martin guitar that he uses currently.

Known for their tight harmonies and driving tempos, StrumTherapy put their own special signature on familiar songs as well as lesser known but equally enjoyable selections.
